# Import SVG into Inkscape

# Post Process in Inkscape

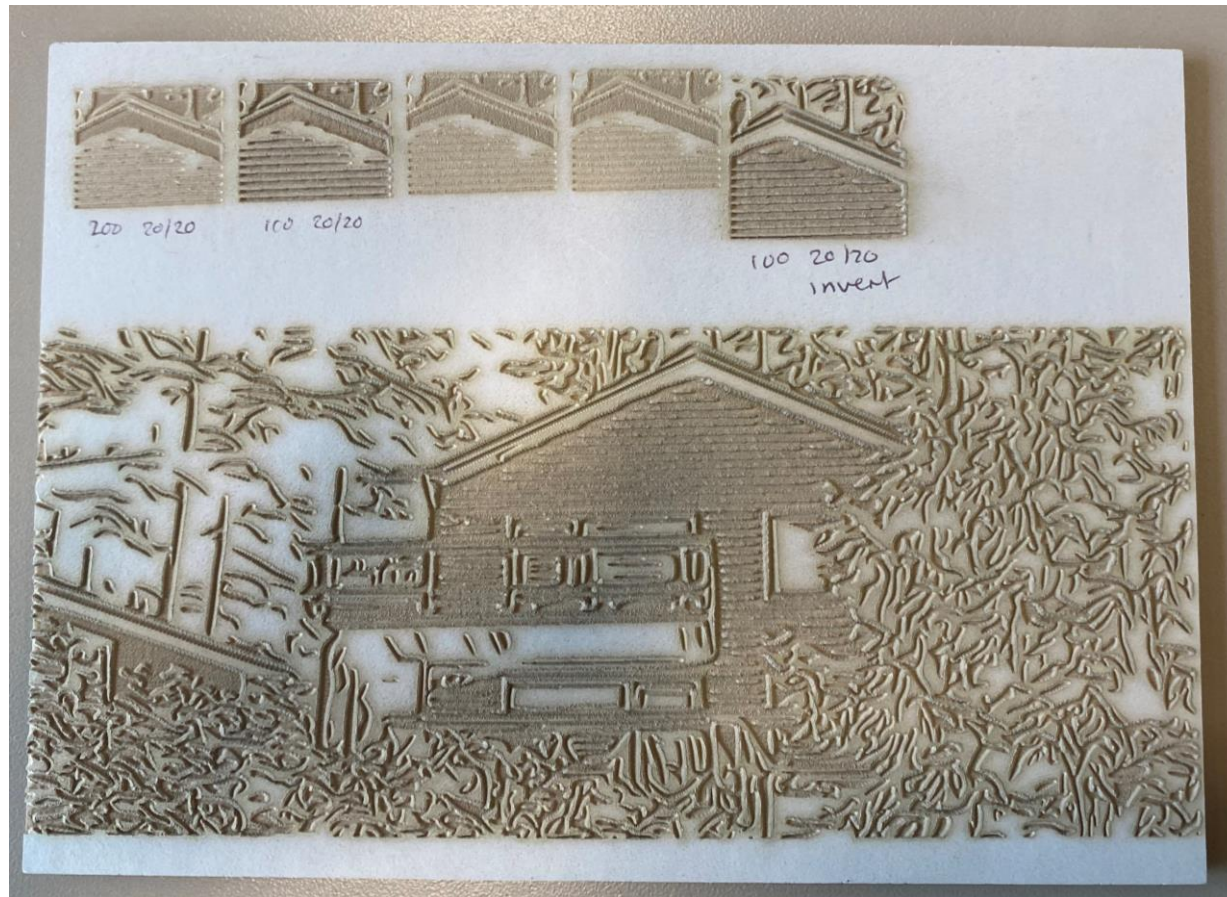

- You may want to invert image: Black to White and vice versa
- You probably want to mirror the image to ensure it is correct when printed
- You may want to crop image
- Resize drawing to selected image
- Save revised SVG

# Lightburn

- Import SVG into Lightburn
- For our selected lino, settings on Big Red were 100,20,20
- Cut in single pass

Note that this image has been inverted but not mirrored

# Finished result

Cotton

Paper
